

Tài Đồ (Kai)

Full-Stack Developer & AI Systems Engineer

Location Ho Chi Minh City, Vietnam Email contact@taido.dev Web taido.dev GitHub github.com/Tai-DT

SUMMARY

Full-Stack Developer building enterprise platforms and intelligent agent systems — currently shipping an enterprise customs declaration platform at VVMV while maintaining 50+ open-source projects across MCP servers, AI agent tooling, Next.js/React frontends, Go backends, and native Swift/SwiftUI applications for macOS & iOS.

WORK EXPERIENCE

Full-Stack Developer — VVMV Current 2026 – Present

Building and maintaining an enterprise customs declaration (CDS) platform for Vietnamese customs workflows — split-stack architecture: Next.js frontend, dedicated NestJS API, and a Python AI data-standardization pipeline.

- ▶ Split a monolithic Next.js BFF into a production Next.js frontend plus standalone NestJS API, sharing Better Auth sessions over PostgreSQL/Prisma
- ▶ Delivered customs declaration (CDS) modules: declaration info lookup, AI-assisted document extraction, cargo unit & party data normalization
- ▶ Built the ai-vmv data standardization pipeline processing thousands of customs JSONL records into LLM-ready datasets

Next.js 15 NestJS Prisma PostgreSQL Better Auth Python

Independent Developer & Open-Source Builder — Tai-DT on GitHub 2025 – Present

Designing and shipping 50+ public repositories spanning MCP servers, AI agent tooling, full-stack web platforms, and native macOS/mobile applications.

- ▶ Authored production MCP servers — Archify (23 tools), Expo Gemini, MCP Crawler — extending AI coding agents with new capabilities
- ▶ Shipped full-stack platforms: Huế Travel (Go/Gin + React Native + Next.js), AISTEM X (aistemx.com), StudyGrid
- ▶ Built native Apple utilities in Swift/SwiftUI (DataShuttle, EchoLens) and desktop tools in Electron (Codex Desk)

MCP TypeScript Go Swift Next.js Cloudflare

FEATURED PROJECTS

VVMV Customs Platform — Enterprise customs declaration system:
Next.js + NestJS + AI pipeline

Archify MCP — 23-tool architecture & lifecycle MCP server

Huế Travel — Go/Gin API + React Native + Next.js tourism platform

AISTEM X — International STEM platform (aistemx.com)

Orca — ADE for running fleets of parallel AI coding agents

Codex Desk — Multi-account ChatGPT/Codex desktop manager (15★)

EchoLens — Android → macOS real-time camera/audio streaming (Swift)

AI Video Creator Pro — Multilingual Veo 2.0/3.0 video generation studio

TECHNICAL SKILLS

AI & Agentic Engineering

Model Context Protocol (MCP), Autonomous Agent Workflows, LLM Integration (OpenAI, Claude, Gemini), Prompt & Context Engineering

Backend & Cloud

NestJS, Node.js, Go (Gin), Python (FastAPI), PostgreSQL, Prisma, Cloudflare Workers/Pages/D1/KV

Frontend & UI/UX

Next.js 15, React 19, TypeScript, Tailwind CSS v4, Radix UI, Three.js/WebGL, Framer Motion

Mobile, Desktop & DevOps

Swift/SwiftUI (macOS/iOS), React Native & Expo, Electron & Tauri, Docker, Git/GitHub Actions, Wrangler CLI
